COURSE OBJECTIVES

Customers accustomed to working with other CNC control systems can now easily transition to the user-friendly FANUC CNC interface. This transition is seamlessly guided, allowing your team to work quickly and efficiently with FANUC technology.

In this training, you will learn to set up programs as well as activate workpiece and tool corrections. The associated control screens and simulation functions will be explained.

Every participant has access to a PC for the entire duration of this cours.

CONTENT

- Overview of the controls
- Operating CNC screens
- CNC operation
- Standard interface
- *i*HMI Interface
- Opening and executing a program
- Manual programming (MDI)
- Setting the workpiece zero point
- Setting tool corrections
- Documentation + MyFANUC

SME PORTFOLIO

FANUC Academy is registered for the SME Portfolio subsidy. If your company fulfills the conditions, the Flemish Government will pay 20% or 30% of the net cost of the training course.

Registration number: DV.0217283
