

# ROBOGUIDE ONLINE - HANDLINGPRO

## ROBOTS

### DURATION

Two consecutive days of training  
(total of 13 hours)

### TARGET GROUP

- Programmers
- System Integrators
- Machine builders
- Project managers
- Project engineers
- Designers

### PREREQUISITES

Successful completion of FANUC  
ROBOT HandlingTool - BASIC.

### PARTICIPANTS

6 Participants / Minimum 3

### CERTIFICATE

If you receive a favourable  
assessment at the end of the course,  
you will be issued with a certificate.

### LOCATION

Online  
Tel.: +32 15 78 88 71  
Email: [training@fanuc.be](mailto:training@fanuc.be)

### COURSE OBJECTIVES

This training course familiarises you with ROBOGUIDE simulation software. You will learn how to create basic workcells, choose a robot and validate it in the cell (based on achievability and desired cycle times). This will enable you to develop and test applications in a virtual environment.

Each trainee will have the use of a PC throughout the training.

### COURSE CONTENT

- Overview of functionality
- Software installation, instructions and registration
- Creating a basic cell layout via a database
- Working with Virtual Controller
- Working with Robot Neighbourhood, exporting and importing programs
- Making programs using *iPendant* and Cell Browser
- Creating a cell from a backup (AOA)
- Performing simulations

### SME PORTFOLIO

FANUC Academy is registered for the SME Portfolio subsidy. If your company fulfils the conditions, the Flemish Government will pay 20% or 30% of the net cost of the training course.

Registration number: DV.0217283
